R Vishnuprasad

+91 7592987282 | rvishnuprasad310@gmail.com | Kerala, India

Professional Skills

Languages	C, C++, Java, Python, JavaScript, SQL, XML
PLM Tools	Teamcenter (2512), Active Workspace (AWC) Customization, Server-Side Customization (ITK), BMIDE Configuration
PLM Modules	Workflow Designer, Structure Manager, Classification Administration, Query Builder, Projects, Organization, ACLs, Change Management, Report Builder, XRT Editor
CAD Tools	NX, Solid Edge, SolidWorks
Tools & Frameworks	Visual Studio Professional, GitHub, Jira, Polarion, Azure DevOps, ITK APIs, REST APIs, MySQL Workbench
Certifications	Siemens Teamcenter Professional Certification; Siemens Partner – Teamcenter X Associate Certification; AWS Cloud Practitioner
Domain Expertise	Automobile Manufacturing & Product Engineering, Automotive & Electronic Components, Medical Devices, IoT

Professional Experience

Product & System Engineer
Oct 2025 – Present

Capgemini — *India*

Role: Developer

- **Server-Side Customization:** Built custom utilities, extensions, action handlers and rule handlers using Teamcenter ITK (C/C++) to address complex business requirements.
- **AWC Customization:** Performed UI customization of icons and workspaces; created commands, actions and stylesheet configurations to enhance user experience.
- **Workflow Designer:** Designed 20+ custom workflows based on customer requirements, ensuring business logic correctness and process efficiency.
- **BMIDE Configuration:** Created custom item types, forms, LOVs and rules (Display, Naming, GRM and Deep Copy rules) to ensure accurate data handling and security.
- **Classification:** Created and managed 100+ classes, hierarchies, attributes and LOVs in line with business requirements.
- **Organization:** Created groups, roles, users and persons using scripts via make-user utility and the Organization module.
- **Administration:** Served as Backup Admin responsible for BMIDE deployments and imports of workflows, ACLs, organization data, preferences and other modules.

Project Engineer
May 2022 – Oct 2025

Wipro Technologies — *Bangalore, India*

Role: Developer

- **Query Builder:** Developed custom queries for Active Workspace to meet reporting and search requirements.
- **Data Migration:** Migrated 10,000+ items to production with 100% accuracy; created items, metadata, classification data and attached files using IPS data upload utilities and custom scripts.
- **Deployment:** Deployed BMIDE packages via Hot and Cold deployment, including Stylesheets, DLLs, Workflows, Queries, Classification Trees and CAD integrations.
- **CAD Integration:** Configured custom attribute mapping and integrated CAD tools (NX, Solid Edge, SolidWorks) with AWC, ensuring full PLM–CAD connectivity.

Role: PLM Test Engineer

- Led the cross-functional testing team for end-to-end testing across sprints; developed and executed comprehensive test plans.
- Collaborated with customers, business teams and developers throughout agile phases to ensure quality deliverables.

Programmer Analyst Trainee (Internship)
Feb 2022 – May 2022

Cognizant Technology Solutions

- Designed and optimized MySQL queries, reducing data fetch time significantly.
- Assisted in database design and coordinated with the team for planned execution of queries.

Achievements

Gen AI Ideathon Winner
July – Sep 2023

Wipro

- Developed an AI-driven solution to increase the efficiency of Change Impact Analysis in PLM: when an engineer modifies a part, the AI automatically identifies affected items, assemblies, related documents and downstream manufacturing impacts.

Education

B.E. Computer Science and Engineering
June 2018 – May 2022

Hindustan Institute of Technology – Anna University — *Tamil Nadu, India*

- CGPA: 8.49 / 10 (First Class with Distinction)
